#### **POSITION DESCRIPTION:**

This position functions as the Manager of the State Data Center (SDC) within the Demographic Research Unit. The SDC was established to disseminate census data, increase and improve public access to census data products, and serve as a resource to the regional and local affiliate centers in California. This position manages a staff having knowledge of principles and concepts of demography in a research and statistical setting. The Data Center Manager works under the supervision of the Chief Demographer and cooperates closely with the staff of Economic and Revenue Research, as well as the Program Budget Manager for Forecasting to ensure that the best available research data are used; forecasting assumptions are as accurate as possible; and that policy and budgeting implications of demographic change are understood by appropriate staff in the Department of Finance (DOF). The Data Center Manager is the state expert in census data products and their use in policy. The position manages the relationship with the data center network, and will also be closely involved in the preparation and operation of the decennial census of 2020.
